Always Home

With Ring, You're Always Home.

OVERVIEW:

Ring is on a mission to reduce crime in neighborhoods worldwide. Its suite of simple, proactive home security solutions enable homeowners, neighbors and police officials to work together to improve neighborhood security. It's common for burglars to knock or ring the doorbell to make sure nobody's home before breaking in; with Ring's security products, homeowners can give potential intruders the impression they're home, even when they're not.

Never worry about missing a visitor again thanks to Ring. Ring's range of Video Doorbells and Security Cameras stream live audio and video from your property directly to your smartphone or tablet, allowing homeowners to stay connected to their homes whether in the kitchen or on the other side of the world. Ring's suite of integrated security

products install in minutes, with no professional help or additional tools required, and can be accessed through the free Ring app on any iOS or Android device. No need to wonder if something is going on outside your home – see for yourself. Built-in motion sensors detect activity on your property and trigger instant mobile alerts, making sure you know what's going on even if you aren't there.

Missed a notification? Simply access stored footage through a smartphone or computer at any time thanks to additional Ring Protect Plans. Ring footage has helped police identify and arrest countless burglars and thieves across the country. Ring blends convenience, monitoring, and security into one simple home security ecosystem.

With Ring, you're always home.

Always Home

Your Ring of Security Starts at the Front Door.

With wide angled HD video, smart motion detection, and cloud recording, it is like you're home even when you're not.

1

CONVENIENCE

You shouldn't have to arrange your life around a delivery schedule. With Ring, you don't have to. Always know when your package arrives no matter where you are - whether you're upstairs or holidaying on the other side of the world, with Ring, you're always home.

2

MONITORING

No need to wonder if something is going on outside your home, see for yourself. Built-in motion sensors detect any activity on your property and trigger instant mobile alerts, giving you peace of mind when you're away.

3

SECURITY

Ring provides a new level of security, by notifying you when someone is on your property and letting you see and speak with anyone at your front door. Imagine being home alone at night, and answering the door in complete safety and comfort.

Always Home
